Spotlight Charity “Tee-off to End Anemia and Malnutrition”

(#TEAM)

Indian tribal communities are crippled by anemia and malnutrition, the effects of which are seen for generations to come. Young, anemic, malnourished mothers give birth to low-birth-weight malnourished babies. To address this problem, MLDT has implemented an integrated strategy to treat and prevent malnutrition and anemia by focusing for 1,000 days on the mother and 1,000 days on the child. Pregnant and lactating mothers are provided supplements and critical education to ensure good health of the mother and the child. This golf scramble aims to treat and screen 4,000 pregnant women, adolescent girls and young children. Let's Tee-off to End Anemia and Malnutrition (#TEAM).

#TEAM

Saturday, Sept 28th

Cinci Desi Golfers (CDG) is thrilled to announce their 10th Annual Charity Golf Scramble. For 2024, CDG will once again partner with MLDC to support their Anemia & Malnutrition initiative. A special celebration is being planned to mark a decade of CDG's community outreach.

MLD Community Care (MLDCC), a volunteer-led 501(c)(3) organization is the USA arm of Dr. M.L. Dhawale Memorial Trust (MLDT) which was established in 1987 with a motto of “Reach the Unreachable”. MLDT provides holistic health care services to over 200,000 patients per year through hospitals, urban clinics, rural clinics, and mobile medical clinics. Rural outreach mobile medical clinics reach villagers at their doorstep providing much needed medical care, antenatal care and institutional delivery to ensure healthy mothers & babies.
